From the Chief Electrical Engineer

No 16591 85.8.26

Explains why he thinks it reasonable to apply the flat rate of Rs 22-80 per light of 40 to 60 c.p. per year in the Korar Gola fields area also as in the case of Mysore & Bangalore and forwards copy of a letter to him from the Pres. San. Bd. by 7 who ~~for~~ pleads financial inability to comply with the suggestion of the Chief Electrical Engineer and wishes to have the old rates of Rs 16 a year for 150 lights installed at the cost of Rs 100-00 for the rest of them.

Has Q

Subd. with a copy of the Govt. sanctioning a flat rate of Rs 22/8/- per light per year (overhead lights of 40 to 60 c.p.) for Bangalore & Mysore.

File containing Govt. No 4664-6/ML 135-18-5827¹⁰/₁₉ referred to in Govt. No 223-30 of 4.11.21 sent as enclosure to Chief ~~Eng~~ Electrical Engineer's letter is not readily available.

~~Lat~~ 6/8 The above for ^{15/15} Govt. requires for the disposal of the ~~repealer~~.

The San. Bd. was hitherto enjoying a concession valid which arrangement has ceased with the end of 1925-26.

The rates for Bangalore and Mysore have been increased. The San. Bd. will also have to pay the same rates as those charged for the 2 Cabs.

No.

On 2nd order dated 21st Nov 1921, the Govt.
passed fixed the concession rates for 5 years
is up to 2925-26, for K. G. F. I stated that
the charges will be subject to revision every
5 years.

Since the rates for every lamp in the
two cities are increased, the same rate
is more applicable to K. G. F. San't B.

There is no legal objection to this course
If the B.D. is not agreeable, power may be
refused. It is only a contract between
B.D. & the Electrical Dept.

Review the draft

With reference to the G.O.No.L-6452-4 ML-161-22-4 dated 14th April 1926, I have the honour to state that in accordance with G.O.No.E.D.S.223-30 dated 21-11-1921 (copy enclosed for ready reference) ordering the continuance of the then existing concession rates being charged up to end of 1925-26 and as the period is now over and as the Government have now sanctioned a flat rate of Rs22-8-0 per light per annum (over head lights of 40 and 60 C.P.) for Bangalore and Mysore, it was considered reasonable to apply this rate in the case of street lights installed at the Kolar Gold Fields also.

2. The President Sanitary Board, who was addressed in the matter has replied as per copy enclosed which is self-explanatory.
3. I have the honour therefore to request the favour of your obtaining very early orders of Government so that the President, Sanitary Board may be replied to.

I have the honour to be,
Sir,
Your most obedient servant

Rates for the supply of Electric
Power for Street Lighting systems
in the State.

Proceedings of the Government of His Highness
the Maharaja of Mysore.

Public Works Department.

Read

Letter No.2188 dated the 30th April 1921 from the Chief Electrical Engineer, submitting proposals for increasing the rates charged for power supply for the Bangalore and Mysore City Municipalities and the Kolar Gold Fields Sanitary Board. Etc.

2. Para 4 of G.O.No.EDS.572-5/27P. dated the 31st May 1921, directing that the question of raising the rates for street lighting systems be taken up separately and proposals therefor submitted for orders

3. Correspondence ending with Note No.EDS.1 dated the 7th July 1921 by the Secretary to Government, Public Works Dept. resubmitting the question for orders.

Order No.EDs.223-30

Dated 21st November 1921.

The existing arrangements under which power is supplied to the Bangalore and Mysore City Municipalities and the Kolar Gold Fields Sanitary Board are as under:-

(a) The Bangalore City Municipal Council pay an annual contribution of Rs20,000 on 1395 lights installed in the whole City including all the extensions and suburban villages.

(b) For all lights put up in addition to the above 1395 lights and for those to be installed hereafter, the Municipal Council have agreed to pay a royalty of Rs30 per lamp of 40 or 60 C.P. and for lights of higher candle power special rates are fixed by Municipal Council and the Electrical Department in consultation with each other. The capital cost of the lights installed in addition to the 1395 lights is borne by the Govt.

(c) The Mysore City Municipal Council pay an annual contribution of Rs10,000 for 600 lights installed within the Municipal limits. An additional 307 lights were installed in 1914 and the rate to be paid on these additional 307 lights was fixed at Rs16.67 per lamp per annum on the same basis as

2733923

7

was fixed for the original 600 lights. All subsequent additional lights are charged at the rate of Rs50 per lamp as per G.O.No.4664-6/Ml.155-15-5 dated 27th October 1919.

In this case also the capital cost incurred on the installation of additional lights was borne by Government.

(d) The K.G.F. Sanitary Board is to pay a flat rate of Rs16 per lamp per annum on the 150 lights installed at the cost of the Board. The rate for subsequent additions is fixed at Rs50 per lamp per annum the capital cost thereon being borne by Government.

2. The Chief Electrical Engineer has recommended a uniform rate of Rs30 per lamp (of 40 or 60 C.P.) per annum for all lights included under original and subsequent installations put up in the three Municipalities.

3. The actual operating expenses are now estimated at Rs30 per light per annum

4. After carefully considering the reasons adduced by the Chief Electrical Engineer to modify or alter the rates, the Government of His Highness the Maharaja of Mysore are pleased to order that the original number of lights, viz., 1395 at Bangalore, 907 at Mysore and 150 at Kolar Gold Fields, may continue to be charged for at the existing concession rates for another five years i.e. up to end of 1925-26.

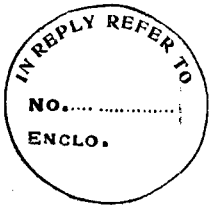

5. For all lights over and above the original number, the charges may be fixed at Rs30 per light per annum.

6. The charges will be subject to revision every 5 years.

BUSINESS TELEGRAPH CODE.

Copy of letter No.C.152/25-26, dated 22nd July 1926 from the President, The Kolar Gold Field Sanitary Board, Champion Reefs, to the Chief Electrical Engineer to Govt. of Mysore, Bangalore.

(Draft Agreement re. K.G.F. Street Lights).

With reference to the Draft Agreement received with your D.O.No.854 of the 30th April 1926 and in continuation of my No.52 dated the 6th May 1926, I write to say that an all-round rate of Rs. 22/8/- per lamp per annum as proposed in the Draft Agreement will cost the Board Rs.405/- a year for the 226 lights, more than what the Board have now been paying for as shown below:--

		<u>Existing rate & cost.</u>
150 Lights @ Rs. 16/-each		Rs. 2400/-
76 " @ Rs. 30/- "		Rs. 2280/-
	Total	Rs. 4680/-
226 " @ Rs. 22/8/- as now proposed.		Rs. 5085/-
	<u>Total Excess.</u>	Rs. 405/-

The Sanitary Board in their present financial strain and in their falling revenue is not in a position to incur any extra expenditure, more especially of a recurring nature of the kind in question and I am afraid the Board may not probably acquiesce to the proposed all-round rate of Rs.22/8/- for reason stated above.

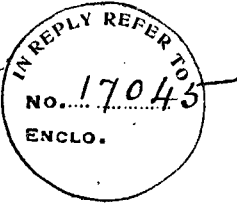

P.T.O.

Street Lighting K. G. F.

Mr. [Signature] I have the honour to invite your kind reference
to this office letter No. 16591 dated 5th instant and
to request the favour of your obtaining very early
orders of Government, so that the President may be
addressed and the bills for street lighting for July
and August 1926 prepared and sent to the President
for payment

I have the honour to be,

Sir,

Your most obedient servant,

[Signature]

Chief Electrical Engineer.

MGK-AK.

w
Proceedings of the Government of H.H.
the Maharaja of Mysore.

R e a d :-

Letters No.16591 dated 5th August 1926 from the Chief Electrical Engineer in Mysore requesting orders in the matter of the -- applicability of the flat rate of Rs.22-8-0 for each over-head street light of 40 & 60 C.P. per annum installed at the Kolar Gold Fields, as in the case of Bangalore and Mysore Cities and forwarding a copy of a letter addressed to him by the President, Sanitary Board, Kolar Gold Fields in the --- matter.

ORDER NO.L. 1705-7 ⁻⁻⁻ 1347-26-2

Dated, Bangalore, the 15th Sept 1926.

In regard to Electric Street lighting in the Kolar Gold Fields Sanitary Board -- area the practice for a long time has been for the Board to pay a flat rate of Rs.16/- per light per annum on the 150 over-head -- lights installed therein at the cost of the Board and for every subsequent addition the rate was fixed at Rs.30/- per lamp per -- annum, the capital cost thereon being borne by Government.

In the year 1921 the Chief Electrical Engineer having pressed for a uniform rate of Rs.30/- per lamp (of 40 or 60 C.P.) per annum for all lights in the Municipalities of Bangalore, Mysore and the Kolar Gold -- Fields Sanitary Board area the Government were pleased to order that the then existing concession rates might be continued for

12

~~all the existing lights~~ for another five years i.e., up to end of June 1925-26, Rs.30/- being ^{homae} charged for all additional lights over and above the original number (vide G.O.No.E.D.S.223-30 dated 21st November 1921)) and that the charges would be subject to revision every 5 years. As the period of 5 years is now over and Govt. have now fixed a flat rate of Rs.22-8-0 per light per annum in the Bangalore & Mysore Cities, the Chief Electrical Engineer has requested that the rate may be adopted in the Kolar Gold Fields area also. The --- President of the Sanitary Board area has urged that on account of the ~~financial~~ ~~str~~ stringency of the Board that body may not agree to ~~the~~ ^{any} increase in the existing rate, which may therefore be continued.

The flat rate of Rs.22-8-0 per annum per light has been fixed for Bangalore & Mysore after a very careful consideration and Government considered that the Sanitary Board area can only be treated in this --- respect just like the Bangalore & Mysore -- City Municipal areas and that the Board will therefore have to accept the rate now proposed by the Chief Electrical Engineer and find funds for meeting the increased charge.

If, on account of the present financial condition, this is found not feasible, the Board may then consider the alternative of reducing the number of lights so as to keep the expenditure for lights within the amount they can afford to incur.
